

**MaYFair - Mobility For All: the Fair Choice**  
2019-1-BE01-KA202-050530

## ABOUT THE PROJECT

MaYFAir designs, develops and tests a methodological kit and a MOOC for mobility promoters, in order to promote the capitalization of the learning outcomes achieved during a mobility for the purpose of allowing the certification of competences in national systems.

The project involves **9 organizations from 4 countries**: 1 Vet provider involved in the national certification system and 1 Vet Mobility Charter owner per country. Moreover, the project involves the participation of UNITELMA, an Italian online University, which will guarantee the scientific value of the project results and allow the issue of a certification with legal validity at European level to MOOC participants.

The project will be based on a strong cross-sectorial and collaborative participatory approach that is meant to take the most advantage out of the involvement of VET Providers and VET mobility Charter owners. Throughout the whole duration of the project and phases, all the partner organizations will cooperate tightly to create innovative methodologies and a set of tools to support the professional development of staff involved in WBL schemes for high-quality services and performance delivery.

The final objective of the project is **to increase the WBL attractiveness across EU by improving competences of those profiles working with WBL programmes both in “sending” and in “hosting” organizations.**

## AIMS AND OBJECTIVES

The objective of the project is to develop a methodology to promote the capitalization of the learning outcomes achieved during a mobility for the certification of the competences in national systems. A specialization curriculum will also be developed, the **“Method Expert for the transparency and validation of learning deriving from mobility in WBL”** curriculum.

The projects also aims at:

- supporting the internationalization of VET providers
- enhancing WBL (work-based learning) mobility and educational opportunities in the EU
- increasing the WBL attractiveness across EU by improving competences of those profiles working with WBL programmes both in “sending” and in “hosting” organizations
- contributing to increase European citizens’ employability also at international level, reducing precarious employment and offering greater opportunities to long-term unemployed
- reinforcing the use of ECVET in order to ensure that the learning outcomes achieved during a mobility can be referenced to NQFs and measured for the certification of standardized professional qualifications

## TARGET GROUP

**VET providers** aimed at internationalization represent the target group of direct beneficiaries involved in WBL abroad activities while indirect ones are **learners and VET staff** (this will encourage mobility and open up opportunities for the development of a network) who need to enhance their skills through WBL abroad experiences.

Key Target reached will include **peer organisations and networks**, who themselves organize and provide WBL abroad mobility.

# PROJECT'S RESULTS

 **IO1 – MAKe**, a toolkit for mobility promoters providing guidance on the design and management of WBL (work-based learning) mobilities based on learning outcomes that can be referenced to the different national systems;

 **IO2 – MADe**, that aims at validating the MaYFAir methodology developed in IO1 through the implementation of 40 mobilities within the framework of 8 new KA1 projects developed and submitted to the Erasmus + 2020 e 2021 calls by MaYFAir project partners;

 **IO3 – BECOME**, the MOOC for the “Method Expert for the transparency and validation of learning deriving from mobility in WBL”, in which the methodologies and the procedures developed through the project will be transformed into e-learning educational materials.

## THE PARTNERSHIP

### Coordinator :

Alphabet Formation - BE

### Partners :

E.RI.FO. – Ente per la Ricerca e la Formazione - IT

Università degli Studi di Roma Unitelma Sapienza - IT

FyG Consultores - ES

Centro San Viator - ES

DIMITRA Education & Consulting - GR

Ce.S.F.Or. Centro Studi Formazione Orientamento - IT

Centre IFAPME Liège-Huy-Verviers ASBL - BE

SivitanidiosDimosia Scholi Technon kai Epangelmaton - GR
