

# Mayfair

## **MAYFAIR: MOBILITY FOR ALL, THE FAIR CHOICE**

MaYFAir designs, develops and tests a methodological kit and a MOOC for mobility promoters, in order to promote the capitalization of the learning outcomes achieved during a mobility for the purpose of allowing the certification of competences in national systems.

# Last Updates of Mayfair Project

## About Mayfair mobilities

This IO aims to validate the toolkit and the methodology created during IO1. It will be implemented through a cross-fertilization process among partners owner of VET mobility Charter and the other ones.

The activities developed go from the design of mobility projects using MaYFAir methodology, retrieve ambassadors willing to host VET-pro trainers, creation of Validation Reports targeted at mobility and reporting on the impact of the MaYFAir methodology, to finally create Transnational Report comparing results of the entire mobility.

Until now, mobilities have already been carried out by the consortium to countries such as:

- Spain
- Cyprus

The experience was positive and fruitful for the students involved. Thanks to this project it was possible to implement the Mayfair methodology in the mobilities.

In future publications, we will be able to share personal experiences, as well as the guides that our students followed before, during and after the end of the mobility.

## What are the next steps?

IO3 contains the converted results of IO1 and IO2, in didactic tools for the purpose of the development a new high education specialization in "*Method expert for the transparency and validation of learning deriving from mobility in WBL*". This tool aims to be didactic and a MOOC (Massive Open Online Course) will be free available online.

This MOOC is thought as an e-Learning course in order to attain a wide number of users all around the world.

On our website you will find relevant information and deliverables developed by the consortium.

# Partnership meetings

## The consortium meeting in Athens

The third meeting of the consortium took place in Athens on September 30th, 2021. During the meeting the partners discussed the implementation of the MaYFAir methodology in the mobilities being carried out. The meeting also served to identify potential complications and the best ways to address them. Thanks to the active participation of the consortium during the day, unity and teamwork were strengthened, ensuring the prosperity and sustainability of the MaYFAir project.

*The participants who attended the meeting in the auditorium of the Sivitanideios school.*

## Future Events to give visibility to the project

Intermediate and final events are held as part of popular events to highlight the progress and results of the project. VET decision-makers and stakeholders are recruited in order to stimulate discussion and exchange of ideas within the project.

The participants of the multiplier events will be involved in the continuous regeneration of the main outputs since the beginning of the project.

The partners are committed to involve key stakeholders by informing them about the project and raising awareness about the issues addressed by the project.

The aim is to enable a process of communication and engagement to ensure the highest level of participation from various organisations and stakeholders.
